Conversation with Jim Gordon - March 9, 1984

K: The law of prosperity - what does it say on the t-shirt?

J: On the t-shirt it says Live one Day at a Time - One Breath at a Time. We started a campaign here a couple of years ago and then some of the churches took it up and then one of the printers here made a decal for it. It's kind of waned now but it was popular for a while.

K: The Time is Now - you talk about the changes that are going to take place - governmental, monetary, personal. O.K., give me examples of the kinds of things that are going to happen.

J: Governmental changes will take place around the world in the sense that a lot of monarchies and dictatorships will end. Some countries will be united with other countries - merging.

K: Doesn't that happen all the time?

J: Well it will be more rapid though without warfare than it has been in the past.

K: Without warfare?

J: Yeah, they'll be sort of alliances - like the Common Market is an alliance - there will be other alliances formed by other countries like that. There will be major monetary changes to the point where eventually the American dollar will be changed. It will be a whole different currency.

K: Changed to what?

J: I don't know what but it will be changed.

K: A world currency?

J: No, that world currency won't take place yet. It's on the way but it won't take place yet.

K: You mean something like gold will no longer be the backing for the dollar?

J: No, it probably will be the backing for the dollar again. Right now it's not a full backed dollar. When they back it with gold once again the dollar will be worth a lot less and you'll have to to trade your money in for other American currency - they'll just change the currency.

K: When is this going to happen?

J: Later on this century. It may - it doesn't have to happen but because of the way things are dictated and because the world itself doesn't want to come together and try to find a level of unity, mankind is forcing these things to happen. So you'll see other currencies being deflated.

(Hung up to type something for Chuck)

K: Where were we - in the middle of the money?

J: Yeah, I was just saying there were a lot of economic changes to come to the world eventually but it's going to be a while before it all happens. I don't know exactly what you want to hear.

going to have to change - about morality - the whole aspect.

K: O.K., let's go into a couple of those. Attitude about life.

J: The majority of the population today are more concerned with eating, drinking, sleeping, working, playing than they are about their own spiritual nature or really taking into view how much responsibility they have for themselves - not just physically but spiritually. So those attitudes are going to have to change - man is going to have to take more interest in his own spiritual identity and progression and not leave it up to others outside of himself to do it for him. Like today, the majority of people let the medical industry take care of their health for them. Same way with religion - the majority let the churches take care of their spirituality for them - dictate to them how they should be spiritual. In the future, man is going to have to be more responsible for his physical health, his mental health, his emotional health and his spiritual health - take some responsibility on himself and not put it all outside himself in other people's hands as he has in the past.

K: O.K., morality.

J: Again it just comes down to judgement and freedom. Allowing people to have the freedom of growth and learning through the experience of their life and not dictating disciplines on other peoples' lives when the majority of mankind doesn't even know how to discipline his own. Boy it's really hard to say - I don't know just how it's going to go about changing - I just know that the views of morality

are going to change in the future - not the immediate future but over the next few hundred years morality is going to change quite a bit - as far as the view of it.

All these changes are not going to happen overnight - they are going to happen over the next century or two. For one thing societies don't change that rapidly and people individually change even more slowly. We are going through a transitional period now from one age to another and in that pattern change there is usually a period of transition in which things go through changes - progressive changes from one age to the next before you actually get into that next age of humanity. That's what's happening now - we are in a transitional period energy wise. Really, I guess you would say we have just left the transitional period and entered into the main flow of the new age. And as we've done that, the transition from the past to the present is a very slow progression. And a lot of things die very slowly. For instance, you can see the struggle right now of the fanatical movements of the world struggling to survive to come back once again in full play. A good example of that would be Kohamani and that religious groups. Also the destructive energies and ideologies of the Ku Klux Klan. The way religious views are presented in Ireland and causing this war to take place. Things like that - and those are in a sense struggling for survival right now because they know - it's known that the energy has waned - there's not as much support as there used to be because mankind has advanced enough now to where a lot of people can see beyond that ignorance and see that there's more to life than just the little limitations that that one group or ideology has.

K: Now, there was a part in here about the animal kingdom and how it was going to become extinct. Doorway shut. Other planetary systems.

Another planetary system east of here - did you say East?

J: Yeah, East of our solar system

K: And you say - eventually there will be no more animal kingdom.  
How long do you think that's going to be?

J: Well, the process of extinction has been going on for several hundred years and now that the doorway has really been closed, you can see that a lot of the animal kingdom is slowly dying.

K: At one point I thought you said something like that if you loved your cat it could help him become an individualized soul?

J: It can help them, yes.

K: But the individualized soul won't come here?

J: Not right now. Eventually - in cycles to come there will be a point in which there will be souls of the animal kingdom coming back to this planet as humans but that's some time down the line. The Earth has got to go through this upward cycle in which the souls that are ready for growth and liberation, spiritual attainment will first fulfill their purpose and then, eventually, when the Earth gets to a point where it can accept the younger souls once again in its evolutionary growth, then those souls may choose to come back here to this planet and may choose to go ahead and experience its state of humanity here on this planet. And a lot of times - this has happened before and it'll happen again - some younger souls that had been animals

in previous lifetimes and are now individualized souls have come back to this planet and have met up with humanity that had raised them as animals. In that way the karmic pattern is discontinued. It's real complicated but it does happen.

K: Has that ever happened to us?

J: No not this little group but I'm sure we have people around us that have been affected that way. Story of Lord Matraya of an evolutionary cycle called the Moon Chain, in which they themselves were growing spiritually, attuning themselves for this world, that they had animals there that they were raising and that many of those that were animals then are now their human disciples. I have no idea how long it will take for the animal kingdom to die off.

K: But they don't come back now in this time frame?

J: There might be one or two that might but in general no. Most of them are going to mars and experiencing astral life there - there's a heavy influx of astral life development there. Then some souls are in the area around Saturn waiting for a period in which they can begin their deeper evolution.

K: Is that like Hitler?

J: Hitler is a different story there - he has to go through the mineral kingdom, plant kingdom and everything.

K: Now the plant kingdom, you say, will remain because we need food.  
(Right) What happens to plants? Where do they go from plants?

J: The deva kingdom then becomes involved in the animal kingdom. It's from etheric to mineral - mineral to plant - plant to animal - animal to individualized soul.

K: You were talking at one point about a tree bowing to you.

J: Yes, if you begin to recognize the Christ and the divine godhead within you - within your own soul - through that recognition you'll begin to notice the divinity in other things around you. As you do you will see that the plants and the animals and the divinity in them also recognize the divinity in you and in that recognition if you pay attention, those animals or plants would respond to you. I used to have it all the time when I would be driving to work and if I just paid attention and tuned in I could see plants and trees kind of bowing in some way in respect. As I would recognize their divinity, they would recognize mine.

K: Go further into the Inquisition period, historically.

J: A lot of the souls from the Inquisition are now back on this planet.

K: More of the story of John, Lynne and me back then.

J: It was just a matter of people presenting their own idea of spirit which was against or rebelled against the dogma of the day - the dogma of the church. So people of the lower energies, who really could not understand or interpret spiritual awareness began to

condemn it and pass judgement on it as wicked and began to persecute, prosecute and kill those people who did not go along with their standard view of life. We were the ones that were trying to introduce - that was the period in life in which humanity had reached its dark point - it had gone through the dark ages and it had just begun its upward cycle. And in that point it was time to bring about a new understanding of mentality. At that point, man was more animal, emotional and physical in nature. And it was time for man, again, to have the mental and the spiritual sort of infused in the society where more people were going to be involved in it. And so you had these New Age people of the day, coming forth and presenting more spiritual and mental capabilities and introduce that into the society of the day. And those that were more caught up in the animal, emotional, physical nature said no, "You're trying to destroy our comfort. We're happy where we are. Leave us alone." And so they tried to keep them from leaving any impression. You know the age of the Renaissance was the age of the awakening of the mind. In that period some of us were involved in the religious, some in politics - it just depended on where we could best serve as to where we were placed in society. Some of us suffered more persecution by the Inquisitors than others and some of us were less persecuted - it just depended upon where we were and what we were trying to do and how it was viewed by society. Some of the people involved got very personally involved with the situation and through the personal involvement kind of got wrapped up and lost sight of the total mission that they had come into the world for and in that process, too, they hurt themselves and hurt the situation and brought more condemnation on themselves because of it.

K:

Then you go into a question that I can't hear on the tape and your

answer has to do with 666 - who will be it. Your answer is "I don't think the time will ever come totally to reality, but if it does, I'll make that decision then - that's in the future. I'm going to concentrate on what I'm doing now and I'm going to do my best to keep that from happening by living in the spiritual realm and manifesting on the physical. If I dwell upon the 666 and who it's going to be and what's going to happen, I'm just giving that power to it rather than to keep it from happening." Now, what are you talking about?

J: Somebody just wanted to know who the anti-Christ was going to be - who it was that would be the 666 - I think somebody asked me if Ronald Reagan was the 666 or if he was a part of that energy. And I was just stating that I do not try to dwell upon who is dealing with that.

K: What does the 666 mean?

J: It has a lot of different interpretations. People have begun to interpret it as the anti-Christ. If anything, it really means the anti-Christ that is in us. See everything is symbolic and literal. Like Revelations has been taken only as a literal interpretation and really there's a lot of symbolology of spiritual initiations that each of us have to go through in order to achieve spiritual awareness. And the 666 is symbolic of the lower three vehicles of man - the physical, the emotional and the mental nature - and being so engrossed in the physical or in the lower natures that those three vehicles have more control than the spiritual. And so 666 becomes anti-Christ because it is the controller of the soul and it keeps the soul gravitated to

the physical world rather than to the spiritual. There also are those souls on the Earth that are working more for the physical rather than the spiritual and those, in a sense, could be called the anti-Christ because they are involved in keeping man engrossed in this world rather than searching for the spiritual liberation from the world.

K: At one point someone asked you what Christ looked like and you said he looked very much like this picture except that he had darker hair and darker eyes. What picture?

J: A picture that a man has done in Spain taken from the Shroud of Turin.

K: It's the one that's here in the Foundation office?

J: Yeah.

K: That's what I thought but I wanted to check. And at one point you said you weren't sure about the shroud, because there's so much belief tied up in it.

J: Oh yeah, I could never verify it - I believe that it is in my own way but there's no way I could actually psychometrize it and say "Yes, this is definitely the shroud." Looking at it there's so much belief put into it that it is - a lot of people can put belief in a particular item that it's going to make them well. If they believe it, it will do it and then that item will take on the energy of a healing energy even though it itself doesn't possess it. Man

gives it that identity. And that's the case here - I could not really tell you by looking at it necessarily and I have never been told yes or no. But I would just say for my own belief, I believe that it is.

K: O.K., let's go back to the time of Christ. John the Baptist was the master the some followed until Christ came along. John the Beloved was one of John the Baptist's disciples, right? (Yes) O.K., here we go again. Is he now Charon Singh?

J: No, the energy - see when you are at that level there is no personality - just as Jesus eventually became a non-person and then it's the same here.

K: O.K., but how do you know then that you've hooked up with the same master in four lifetimes?

J: Oh, you don't. It may not be the same master - it will be the same energy - the same liberating energy, but it will not be the same soul necessarily.

K: I must have misunderstood you on that then.

J: It will be the same idea of a liberating master - you will hook up with that four times, but it will not be the same... Just like with the energy of Charon Singh - when he passes the energy on to the next disciple so that he is then the living master, living saint, then it will be the same energy of God coming through.

K: So then Moses was not a living saint.

J: I don't think so, Not Moses.

K: O.K., next. You are talking about a place called Osiris.

J: A place?

K: Yes, I thought it strange, too.

J: Oh, the system - the solar system. Yeah, Osiris is a constellation

K: Is it like the Egyptian Osiris?

J: It's a constellation in the heavens - if you look under astronomy you'll find it, I'm sure.

K: It's not Orion?

J: Did I say Osiris for sure?

K: Yes - you say, "The anti-Christ is in the flesh right now and he is beginning to do his work just as the greater master is doing his work. There's always a balancing of force - I could go into a lot more detail but I don't know if I should. You have in the East..." and I guess by that you mean Asia, (Yes), "a rise in the Osiris population. A lot of souls came from Osiris to this planet at a point in time in our evolution to work with the downward cycle masters."

J: O.K., well see, in the constellation of Orion there is on the inner planes...I don't know if it's a planet, I'm not real sure...I just know that there is an energy in Orion called Osiris - and it's in the nebula.

K: So this is the Orion folks again. In the nebula - what...

J: Yes, in the nebula and it's called...I don't remember exactly how it's worded now but it has to do with Osiris.

K: Now, does that have anything to do with the God of Egypt?

J: I don't know - I've never looked into it but I would suspect that's that's where it comes from - either it got it's name in connection with - I don't just know how it came about. (Pause) Yeah, see that energy is part of the downward flow - those souls are - and they are trying to keep humanity more involved in the physical and more in the negative reference of life rather than the positive. So that group - yeah - that's where the name Osiris comes from in the Egyptian lodge. In the mystery schools when they teach about the underworld and the God Osiris, they were teaching about that particular group of souls that came from that negative realm of the universe.

K: They're telling you that right now, right. (Yes) Because you keep saying "Yeah, yeah."

J: That came through me - I didn't even realize what I had said on the tape - I've never listened to it again so I didn't even realize that. So, that's interesting.

K: Yes it is. You don't remember Osiris?

J: I don't remember hearing about it - see, when I'm lecturing I just say what they're talking about at the time and I don't pay that much attention sometimes to what's said. A lot of that just comes and goes - whenever I counsel people, I don't remember from one time to the next what I've told them.

K: O.K., the master born in 1949 - where is this person? Where was he born? When was he born? Do you know the date?

J: O.K., according to what Hammed has talked about, he was born November 11, 1949 at Mt. Shasta, California.

K: Why does Hammed...?

J: Well, he had witnessed the birth.

K: In the flesh or not?

J: Yeah, it was a physical birth.

K: No, I mean where was he - in flesh or astral?

J: Yeah, he was there at the birth.

K: That's interesting - and what does he have to say about that.

J: I don't really have the whole story. John Davis would have more because he talked to Hammed on the subject and he could probably

give you a better explanation of the whole thing. All I know is that there were a group of individuals that were gathered together - there were 22 people gathered together to witness the presentation of a child. I don't really know the whole story beyond that except that I do know that this is a particular master.

K: What do you mean, a particular?

J: It's just a spiritual energy that's come in - just like Jesus who is here to, in a sense, help raise up certain people's spiritual views. He will be a spiritual master to a group of individuals in the world.

K: You said the anti-Christ was here too - now he was born in 1949?

J: I don't know.

K: You don't know - it's not necessary that he was also born in 1949?  
(No) Do you think he, too, was born in this country?

J: I don't think so, no. From everything I've had, he will come from the Middle East, like Iran, Iraq, Syria - I feel like there will be three major negative influences and that will be where one of them comes from. Another one will come out of Europe. And then another will come out of the Far East - either China, Mongolia or Japan. They will be negative and working to keep the world more in a controlled state.

K: What about the three positive? Where are they?

J: I'm not allowed to say, because they don't want to be focused on in any way - they just want to be allowed to do their work.

(After this conversation with Jim, I called Cleora and asked her to give me more information on the Mt. Shasta baby and she read me part of John Davis' book - portions of this conversation follow *March 13, 1984*

C: I have a feeling that there was more going on with Hammed Bey at that time than what John Davis wrote in the book. Messiah and the Second Coming, by John Davis and Naomi Rice. "On the 9th of November, 1949, Hammed Bey was in Chicago giving a lecture. As he finished his speech, he was handed a telegram. It stated he was to take a flight to San Francisco. The flight had been booked and the reservation was made for him to leave at 1:00 a.m. the next morning. He had originally planned to fly to Los Angeles for the International Peace Conference as his series of lectures was over, but he knew intuitively that he must go to San Francisco. When the plane reached the Rocky Mountains, it was cloudy and it was raining a lot. Continuing to their destination, both airports, in San Francisco and in Oakland were closed because of the storm. Early morning of November 10th the plane landed at Reading, California, near Mt. Shasta, a high spiritual center for countless ages. As he deplaned in Reading a stranger came to him and asked if he was Hammed Bey. On acknowledging his identity, the man took Hammed to a car and in the vehicle there were three other representatives also asked to attend the event and who had arrived on the same flight."

K: Who were they, do you know?

"That's this all about," Hammed Bey asked. "Do not be concerned."

You could not land in San Francisco," the stranger replied.

Hammed didn't know why but he was intuitively satisfied with the man's remark. The four spiritual representatives and the stranger went into Reading and checked into a nearby hotel, not knowing why they were there. The next morning, November 11th, each was given a pack and all were taken in a jeep to a certain secluded glen on Mt. Shasta where they walked quite a distance on foot.

There were 22 witnesses by this time. All had stayed at the same hotel near Reading the night before. Each person represented a different country. Finally they were told to stop and put down all their personal supplies - each being placed separately in a particular position in a long wide circle and were asked to wait. At exactly 11:00 a.m., the Messiah child was brought to Earth in an interdimensional spaceship. The birth had taken place in a spaceship before holy witnesses - the ship landed one quarter mile away from the witnesses.

Tremendous pressure of air was exerted. The trees and vegetation were pulled over. The 22 were told, while seated in a half-moon circle, that this was a sign of the birth of the new messiah. On innerplanes, the high priest, the Christ himself, Matraya, had anointed the Child in the spaceship ceremony. Count Saint Germaine, who had dedicated his many experiences on Earth to the vision of the Spiritual Unity of Nations was present at the birth on the innerplanes. He along with six other ascended masters attended the magnificent event.

Cosmic light saturated the entire scene. It was as bright as the star of Bethlehem. The light around the spacecraft temporarily blinded the 22 witnesses. It was not an immaculate conception, but the spiritual lineage was vitally important. The Mother was taken from the ship and is no longer on Earth."

K: What does that mean - she's passed over or something?

C: I don't know - it doesn't say that. "The Father was not present at the time of birth and shall remain anonymous. The Messiah was only a child. The Mother was a highly evolved woman who came to the Earth plane to bear this child. Although the hierarchy prayed for the manifestation of the Messiah in 1945, they had known for 2000 years the date would come again. When they used their combined energies to bring forth the child, the Mother was ready. She had known for several years that she was to bear the Messiah and had prepared herself accordingly. Immediately after the event, the child was taken in a spaceship to a temple in Egypt and has been constantly attended by his guardian masters, being trained for eventual Messiahship to come." And then he says, "Actual newsclipping from Columbia, S.C., December 1, 1949. A Christmas star, possibly connected with the one which drew shepherds and wisemen to the site of the infant Christ, one thousand nine hundred and forty-nine years ago, hung over the nation this morning. The star (actually the merged orbits of Saturn and Mars) was visible from midnight to dawn in the southeastern sky yesterday and today. It will be shining again for the next two mornings although the stars are not separating. Across the nation, many persons, including amateur astrologers and astronomers and others interested in the start for its mystical interpretation arose early to gather in the cold morning air to witness the ancient symbol. Scores of persons here, salesmen, soldiers, students, professors and postmen rose before dawn to witness the spectacle in the sky. In New York, the Hayden Planetarium opened its Christmas spectacular today with an arrangement of stars similar to that which appeared in the heavens this morning."

K: O.K., so it doesn't say what nationality this child is, does it?

C: No it doesn't. (Interruption in tape) Comets go around the sun in great oval orbits. This permits their behaviour to be calculated accurately. When a comet comes close to the sun, as Haley's comet soon will, the increasing heat melts it's icy shell loosening vapor gas and dust from the center of the comet, creating a coma as large as 100,000 miles across. Solar winds of electrically charged atomic particles blow the debris away from the sun, forming a tail, which often stretches more than 50 million miles long with light reflecting from the entire display, it will be a spellbinding light. The comet's close rendezvous with Earth will come April 11, 1986. The Heavens will be blazing with the spectacular sight. It is during this time period that the Aquarian Messiah may make his public appearance to the world scene. He is presently living in the Western part of the United States, having completed his temple training in Egypt. The Aquarian Master being born November 11th at the 11th hour, 1949, near Mt. Shasta, California exemplifying the rising hour of mankind's return to spirituality. It's the humanity's highest hour."

K: O.K., now he didn't witness a physical birth.

C: Well, no he didn't see a baby coming out of the womb.

K: And there was something in there that said it was a child, which might mean he had been born previously - or was it that hour and day? Do you think that happened anywhere else on Earth that day?

C: No, but a lot of people believe that there are more than just one.

they think there are five.

K: Why?

C: That would make more sense to me. For one thing it's the Aquarian Age and Aquarius is the symbol for group energy and also because - as some are saying - there's one Messiah for each religion, so there'd be one for the Jews, One for the Christians, one for the Hindus, etc. But whenever there are Christ energies on the planet, then there are also anti-Christ energies. It's a balancing of dualities.

K: It would be interesting to know who the other people were that witnessed it.

C: That you might ask John Davis. He might know.

K: So the Mother's not here - the Father's not here - who has he been raised by?

CL: Probably teachers.

K: That's right he was in Egypt but now he's back in the Western part of the U.S. When was that book written?

C: First printing was 1982.

K: So when Haley's comet comes around on April 11th...

C; He may make an appearance. He may not even become public. He may just work on the inner planes in meditation with people. I don't know why he would want to become public again anyhow - he'd just get crucified again.

K: That may be the reason.

C; I did his chart and it says that he may communicate in more of a direct fashion in 1986.

K: What else does his chart say?

C: It interesting as far as masculine and feminine principles - everything is in balance in the chart - the masculine and feminine, the planets of expansion and contraction, and the chart shows a lot of power behind it - somebody who would probably have a real good sense of humor and somebody who would be real direct with their words - get right to the point. It's a very dynamic chart.

K: Has Jim ever met him?

C: You'd have to ask Jim. Who knows what Jim experiences?

(END OF CLEORA TAPE)

K: O.K., Jim, you were talking about the difference between the Lord's Prayer and the Great Invocation.

J: I don't remember any of this.

K: You said something about the Great Invocation calling on an Extraterrestrial Master.

J: Well, in order for a major change to come into the world, it's going to require, in a sense, energy outside of the evolutionary cycles of this world to really instill the major changes needed. What's happening right now is that the masters of this world - the hierarchy and other masters are in a sense raising up the call to bring about the overshadowing of a very high soul from another solar system to come and in a sense overshadow this world and its evolution. It's happened before, for instance Gautama Buddha - it even goes further than that. Back when this planet was first beginning its evolutionary cycle, the soul that was the planetary soul got involved more in the downward flow of life and in the negative and so the humanity of that day called forth - with the aid of some high souls here - for an extraterrestrial overshadowing. Higher souls from outside its own evolutionary cycle to come and overshadow the evolutionary cycle of this planet and of the solar system. So at that time a group of souls came to this planet and one of them was Sanat Kumara - and he overshadowed the planetary logos, the planetary soul and in a sense became that planetary soul so as to upgrade the evolution of this planet. And now what's happening is that this new call is going forth to bring about a new energy - see, it's time for Sanat Kumara to relinquish his duties. He has done all that he could do and it's time for a change. And the lord Gautama Buddha is on the way out - he has evolved to such an extent that his energy is really way beyond the physical planet of Earth or even the levels of the spiritual planet of Earth, but he has volunteered to take the place of Sanat Kumara and release him from his duties and then Buddha will

take over as the planetary soul or planetary logos. This call is helping to bring this about and there is also an extraterrestrial soul - and by that I just mean not of the Earth, not evolved or been on the Earth before - but there's a very high soul that could come in and overshadow all of this activity and overshadow a group of individuals on this planet that could really inspire major, major changes on this planet and really upgrade the evolution much more than has been affected in thousands of years.

K: But you say that rarely happens.

J: Very rarely. It's been called upon before and it just hasn't happened because the general mass of humanity hasn't wanted it - so they are hoping that right now we're at a high point evolutionary wise and spiritually so that maybe enough energy can be raised from the group that is involved in the spiritual world so that this could actually happen.

K: O.K., what is the Great Invocation?

J: It's a prayer given to - I don't even know if it was given to Alice Bailey or Madame Blavatsky - but it was given around the turn of the century by a group of masters to begin inspiring humanity to call forth all this change that needs to come about. If you'll ask Chuck or somebody, they can give it to you or I can.

# THE GREAT INVOCATION

From the point of light within the Mind of God  
Let light stream forth into the minds of men.  
Let Light descend on Earth.

From the point of Love within the Heart of God  
Let love stream forth into the hearts of men.  
May Christ return to Earth.

From the centre where the Will of God is known  
Let purpose guide the little wills of men ---  
The purpose which the Masters know and serve.

From the centre which we call the race of men  
Let the plan of Love and Light work out  
And may it seal the door where evil dwells.

Let Light and Love and Power restore the Plan on Earth.

J: If I remember right, there's a lot more to the actual Great Invocation - that is a part of it, but that is not the whole invocation.

K: You also said on that tape that most of the UFOs people see are astral.

J: Most of the craft that people see are what we would call interdimensional craft- they can go from one dimension to another and most of them are dealing with bringing astral beings down into this dimension to learn or to communicate or whatever. There are a lot of other-dimensional planets also that are visiting here and their ships can reach down into this dimension.

K: Interdimensional means that they can switch.

J: The crafts are not just astral but can go from one dimension to another.

K:

Why do they need them?

J:

Because some souls don't know how to do what's called soul travel and so in order to do any kind of travel from one dimension to another, they need some sort of transportation. Just like we don't know how to do teleportation here yet, so therefore we need physical vehicles to move.

K:

If somebody gave me an astral spaceship, would that help me in soul travel?

J:

No, they don't give you ships but they're available and when you need to go somewhere you can utilize them if you are spiritually ready for that type of experience.

K:

O.K., have you ever been in one?

J:

Oh yeah, I'm going to send some stuff up to you that will talk about that - that's what I'm writing about now.

K:

But you can do soul travel.

J:

Yeah, but these vehicles are still there and they need to be understood so that's why I'm experiencing them and then I can share it with other people.

K:

That's neat - are you doing it right now?

J:

Yes, that's what I'm working on. I think it will pretty well give you an explanation of it all.

K: The other night on the phone you said we had to talk about  
astral projection at some point.

J: Yeah, that's pretty long so I don't want to go into it now,  
I've got to go pick up my Dad. I just found the other parts  
of the Great Invocation. It starts out:

Let the forces of Light bring Illumination to mankind  
Let the Spirit of Peace be spread abroad  
May men of goodwill everywhere meet  
In a spirit of cooperation.

May forgiveness on the part of all men be the keynote at this time.

Let Power attend to the efforts of the great ones  
So let it be and help us to do our part.

J: My own interpretation of that part is that it was given to help  
try to keep WWII from breaking out, and that's what that main force  
of energy was. And then the next one:

Let the Lords of Liberation issue forth.  
Let them bring succor to the Sons of Men.  
Let the Rider from the secret place come forth  
And coming say, "Come Forth O Mighty One."

Let the Souls of men awaken in the Light  
And may they stand with massed intent.  
Let the fiat (?) of the Lord go forth  
The end of woe has come.

Come forth O Mighty One  
The hour of Service and the saving force has now arrived.  
Let it be spread abroad, O Mighty One.  
Let Light and Love and Power and Debt  
Fulfill the purpose of the coming one.

The Will to Save is here.  
The Love to carry forth the work is widely spread abroad.  
The active aid of all who know the truth is also here.  
Come forth, O Mighty One, and blend these three.  
Construct a great defending wall  
The rule of evil now must end.

J: O.K., with that invocation, you see then, they called forth the manifestation of the three masters that I talked about - the three outer masters. One giving active energies to Will, one to Love and one to active intelligence or what they call active aid in this invocation, you see. So what they are calling for there is more the greater soul - what they call the Rider to come forth and in order for him to come forth, these other three first have to come into manifestation.

K: And do you think that's happened.

J: I know it's happened.

K: Which one?

J: The three outer masters are here.

K: What about the other one?

J: He's in place too. So see, it shows you that the Invocation, if used properly...

K: So there is an extraterrestrial master in flesh?

J: No, no, no, no. I mean there is a greater master that will unite the energies of the lower three the outer masters. You have the three outer masters who are serving in their own way to bring about an awakening of man, one with the understanding of will - the creative energies of the will of God. The next one is working with

the Love aspect and the next one is working with active intelligence and those three are doing their part to bring man up to a particular level of awareness so that then the greater master can come forth and can blend those three together in one body and will serve as a greater master to humanity. So through this invocation and through other peoples' desire and prayer, those three outer masters have come into manifestation and are now doing their work. And from there comes the last invocation : From the Point of Light within the Mind of God, Let Christ return to Earth. So the third part is the call for the greater master to blend the three to then come into manifestation.
